Throughout the whole period of its activity the band played more than 300 concerts in Poland, Czech Republic, Germany and Slovakia. The biggest success was the concert at Wacken Open Air in 2008, where in the world final Chainsaw as a representative of Polish took 2nd place. The band played lots of charity concerts like W.O.Ś.P. and from Covan Wake The Fuck Up, in which it was collected funds for the treatment and rehabilitation of Adriana Kowanek, musician of Decapitated band. In previous years, one of the most spectacular achievements of the team was a concert as support member with Classic Whitesnake group in the Congress Hall in Warsaw.

The band has also in its career big tours with bands Vader, Turbo, Marduk, Acid Drinkers and legend singer of Iron Maiden - Paul Di'Anno.

Considerable interest Chainsaw enjoy concerts on the big summer festivals in Poland, the Czech Republic and Slovakia (including Rock Węgorzewo, Metalmania, Dratofest, Basin Fire Fest, Hunterfest or Metalfest), however, the group most like to play gigs in clubs in close contact with the audience .
